### About Matrix

Matrix (Stock Exchange: Matrix), which employs over 10,000 people, is the leading information technology company in the Israeli market, and it carries out extensive operations in the US and Europe. In the age of digital acceleration, Matrix is leading the market in adopting groundbreaking technologies, methodologies, and tools, creating tremendous value for its customers. Matrix provides a 360-degree toolkit and is engaged in the implementation and integration of some of the largest strategic consulting projects in the country, the development and implementation of technologies and enterprise applications, local and cloud infrastructure and service solutions, outsourcing services, offshore and nearshore services, training and deployment, the representation and marketing of leading software products, and more. The company is at all times at the forefront of innovation as it develops and implements innovative technologies in the fields of cloud, cyber, digital, big data, artificial intelligence, machine learning, IoT, automation, augmented reality, and more. Matrix is a business leader; for over 16 years, the research companies IDC, STKI, and Gartner have been ranking it in first place in the software services industry in Israel.
